ROLAND E. BAKER, Manager

POMFRET CENTER, CONN.

USE TELEPHONES UNDER THEIR NAMES

INTRODUCTION

The name "Hiti" signifies high elevation, which gives a longer season, free from early frost and injury to late growth.

This catalog contains only a list of plants grown at Hiti Nursery, *but stock of all kinds is furnished. Prospective buyers are invited to call at or write to the Boston office and discuss their wants. Mr. Roland E. Baker will attend to all direct Nursery customers.*

The Nursery, on Dana Road, is about a mile by road from Pomfret Station of the N. Y., N. H. & H. R. R., or a short ten-minute walk up the railroad track. A taxi at Station takes you to the Nursery for fifty cents, and can call for you to meet train on return trip. This enables you to carry home any little purchase made, without additional expense, or delay. Visitors to the Nursery between April 1st and November 1st will find some one at hand during business hours to show the stock and take orders. Large specimen trees can be seen on property near by, showing the beauties of their older growth.

In these days of automobile travel customers find it easy to visit Pomfret and *select their plants personally.* In this way they see for the first time perhaps some handsome new things that are just what are wanted for certain effects or uses. If they come prepared, the plants can generally be dug at once and taken away with them, thus saving time, cost in packing and transportation, besides affording the plants themselves only a slight shock in their removal. We strongly

advise this course whenever practicable. Spring is usually the *best* time to handle Nursery stock but the season for many plants may be extended by a little care to include the summer and fall months also; with but slight risk of failure.

The Nursery is closed during the winter months, though of course it is open to inspection at any time. The whole area embraces only about eight or ten acres, on which are two small buildings used as tool and packing houses. *All plants are thus taken up near at hand and can be quickly packed without loss of time or injury from root exposure, a very great advantage to purchasers. The roots are packed in fresh sphagnum moss, which is a great benefit and safeguard if delayed in transit.*

Large sized stock in quantity can be delivered economically by auto as far as Boston to arrive in perfect condition.

Regular shipments by express or freight carefully put up and f. o. b. at cost of packing.

Terms cash, unless otherwise agreed upon.

JAMES H. BOWDITCH, Proprietor,
73 Tremont St., Room 903, Boston, Mass.

EVERGREENS.

		Each
17	<i>Abies Arizona argentea</i> , 5 to 6 ft....	\$10.00 to \$15.00
20	“ “ “ 2 to 2½ ft.....	5.00 to 8.00
One of the best new hardy evergreens. Silvery blue-green in color.		
60	<i>Abies concolor</i> , 3 to 7 ft.....	6.00 to 18.00
30	“ “ 12 to 15 in.....	2.00
A handsome Colorado conifer.		
25	<i>Abies nobilis glauca</i> , 3 to 5 ft.....	8.00 to 15.00
10	“ <i>Nordmanniana</i> , 6 to 7 ft.....	10.00 to 15.00
75	<i>Andromeda floribunda</i> , 12 in.	1.50
25	<i>Buxus Japonica aurea</i> , 12 to 18 in.....	1.50
275	<i>Euonymus radicans acutus</i> , 12 in.....	1.00
25	“ “ <i>Carriere</i> , 3 to 4 ft. ...	6.00
200	“ “ “ 2 to 3 ft....	4.00
175	“ “ “ 18 to 24 in..	2.50

A light green evergreen bush with handsome fruitage.
Makes excellent low hedge.

50	<i>Euonymus radicans Kewensis</i> , 18 to 24 in.	2.00
45	“ “ <i>latifolia</i> , 5 to 6 ft...	10.00
30	“ “ “ 3 to 4 ft...	6.00
150	“ “ “ 2 ft.....	4.00
100	“ “ “ 18 to 24 in.	3.00

A dark green evergreen bush with handsome fruitage, far more easily grown and established than *Rhododendron* for general evergreen effect.

		Each
50	<i>Euonymus radicans vegetus</i> , 2 to 3 ft. ...	\$3.00
40	“ “ <i>variegata</i> , 12 to 18 in.	1.00
125	“ “ “ 6 to 8 in...	.50

For border plant or evergreen vine.

40	<i>Ilex glabra</i> , 18 to 20 in.....	2.00
----	---------------------------------------	------

		Each
10	Juniperus Chinensis procumbens, 18 to 24 in.	\$3.00
65	“ “ “ 12 to 18 in.	2.50
200	“ “ “ 6 to 8 in..	1.50
10	“ “ “ (Blue type), 2 to 2½ ft.	4.00
125	“ “ “ (Blue type), 18 to 20 in.	3.00
180	“ “ “ (Blue type), 12 to 18 in.	2.00

These varieties of Chinese Juniper are very handsome, hardy, and of dense spreading habit.

		Each
30	Juniperus communis aurea, 2½ to 3 ft....	\$3.00
150	“ “ “ 8 to 12 in.....	1.50
65	“ Dayi, 2½ to 3 ft.....	1.50
30	“ “ 2 ft.....	1.00
75	“ “ 6 to 12 in.....	.60
20	“ Hibernica, 2 to 2½ ft.....	2.50
100	“ “ 8 to 10 in.....	.50
5	“ Pfitzeriana, 4 to 5 ft.....	10.00
150	“ “ 18 to 24 in.....	3.00
90	“ “ 10 to 12 in.....	1.25

Handsome and hardy, of both upright and spreading habit.
One of the best.

40	Juniperus Nord du Chine, 12 to 18 in.....	1.50
30	“ Waukegan, 10 to 12 in.....	1.50
100	“ “ 6 to 10 in.....	.75

A hardy Michigan prostrate Juniper. Excellent.

40	Kalmia latifolia, 3 to 4 ft.....	3.00 to 5.00
2	Picea alba Hunnewelli, 2 to 2½ ft.....	7.00
6	“ “ aurea, 4 to 5 to 6 ft.....	10.00
4	“ “ lutea, 4 to 5 ft.....	10.00
3	“ “ Maxwelli, 12 to 15 in.....	6.00
125	“ glauca conica (Dwarf Alberta Spruce), 6 to 12 in., 2.00 to 3.00	

This little dwarf spruce from Alberta is one of the most attractive new evergreens. Very dense in conical habit, it is of soft texture and neat appearance; most useful for any place where formal garden finish is sought for architecturally.

		Each
15	Picea Red Stem, 3 to 6 ft.....	\$5.00 to \$10.00
25	“ polita, 4 to 6 ft.....	5.00 to 10.00

Tiger Tail Spruce. Very distinct.

25	PICEA PUNGENS AUREA, 6 to 8 in. . .	20.00
----	-------------------------------------	-------

An exclusive product of this Nursery, placed upon the market for the first time in quantity. Some years ago about a dozen grafted plants were made up by the late Jackson Dawson of the Arnold Arboretum, Jamaica Plain, Mass., but it was a very difficult subject and could not be persuaded to yield to ordinary treatment.

It has a bright cheerful golden tint in winter and makes a very good companion with *Picea pungens* Kosteri for a single bit of contrasting color. One specimen is enough, but it should be included in any representative planting, where winter effects are so desirable as in this latitude. The early summer growth is a pleasing light green. The original plant, a chance seedling, is now twenty-five to thirty feet in height, growing in this Nursery.

		Each
20	Pinus cembra, 2½ to 4 ft.....	\$5.00
50	“ flexilis, 2 to 3 ft.....	2.50
15	“ densiflora, 3 to 4 ft.	5.00
80	“ sylvestris, 12 in.....	.50
5	“ parvifolia, 6 ft.....	15.00
28	Pseudotsuga taxifolia, 3 to 4 ft.	5.00

Colorado Douglas Spruce.

10	Retinospora squarrosa Veitchi, 2 to 3 ft.	
	Ball Form	4.00
12	“ “ sulfurea, 2 to 3 ft.	
	Ball Form	4.00
20	Rhododendron Carolinianum, 2 ft.	2.50
35	Taxus baccata (type), 2½ to 3 ft.....	4.00
13	“ “ elegantissima, 18 to 24 in..	3.00
25	“ “ “ 12 to 18 in..	2.00
70	“ “ “ var., 18 to 30 in.	2.50

Golden English Yew.

25	“ “ “ 18 to 24 in.....	2.50
35	“ canadensis, 12 to 18 in.....	1.00

		Each
225	<i>Taxus canadensis</i> , 10 to 12 in.	\$.60
300	“ “ 8 to 10 in.50
20	“ <i>cuspidata</i> , 3 to 4 ft.	10.00
500	“ “ (type), 2 to 2½ ft.	2.50
300	“ “ “ 18 to 24 in.	2.00
250	“ “ “ 12 to 18 in.	1.50
300	“ “ “ 10 to 12 in.	1.00

Taxus cuspidata (type) is of spreading and upright habit, admirably adapted to winter greenery on lawn or border.

		Each
300	<i>Taxus cuspidata brevifolia</i> , 18 to 24 in. .	\$3.00 to \$3.50
500	“ “ “ 12 to 18 in.	2.00
350	“ “ “ 10 to 12 in.	1.50
200	“ “ “ 6 to 8 to 10 in. .	1.25

From Japan. One of the best and most hardy of all Yews; a dark, rich green, summer and winter.

		Each
100	<i>Taxus cuspidata brevifolia compacta</i> ,	
	2 to 2½ ft. .	\$8.00
50	“ “ “ “ 18 to 24 in. .	5.00
50	“ “ “ “ 8 to 12 in. .	3.00

Dwarf form of preceding. Excellent for short border setting.

8	<i>Taxus cuspidata nana</i> , 2½ to 3 ft.	8.00
200	“ “ “ 8 to 12 in.	2.00
30	“ “ <i>capitata</i> , 12 to 18 in.	2.00
6	“ “ <i>erecta</i> , 6 to 6½ ft.	20.00 to 25.00
25	“ “ “ 4 to 5 ft.	15.00
40	“ “ “ 3 to 4 ft.	12.00
20	“ “ “ 2 to 3 ft.	8.00

We desire to call attention to our stock of *Taxus cuspidata erecta* which has been carefully grown to single leads, and should be trimmed once a year to keep it in best form and condition. It makes a fine background for any evergreen planting, far superior to Pines and Spruces, except perhaps in heavy screening or wind breaks.

		Each
50	<i>Taxus Hibernica fastigiata</i> , 2 to 3 ft.	\$5.00
20	“ “ “ 2 ft.	3.00
40	“ “ “ 12 to 18 in.	2.50
30	“ <i>repandens</i> , 3 to 3½ ft.	6.00
75	“ “ 2 to 2½ ft.	4.00

		Each
200	<i>Taxus repandens</i> , 18 to 24 in.....	\$2.50
150	“ “ 10 to 12 in.....	1.50
18	“ <i>Washingtoni</i> , 4 ft.....	6.00

The Japanese Yews (*T. cuspidata*) are of exceptional hardiness, good coloring, and generally speaking, by far the most satisfactory of the entire Yew family; and we therefore confidently recommend their broad use for many purposes.

The handsomest forms have been carefully selected and stock of these grown from outdoor cuttings so that the result is sure and exact. We urge prospective customers, or simple visitors, to inspect these young plants and see for themselves their intrinsic beauties. If, however, distance or inconvenience interfere with personal selection, we will gladly make this choice for you if a general statement of planting conditions are given us as a guide to a wise furnishing of what is really needed.

Many old customers living at a distance request us to forward to them from time to time any new or desirable things that we have come across in our Landscape work.

		Each
15	<i>Thuja occidentalis</i> Columbia, 12 to 18 in..	\$2.00
35	<i>Tsuga canadensis compacta</i> , 2½ to 3 ft...	6.00
35	“ “ “ 12 to 18 in...	2.50

A dwarf compact type far better for ornamental planting than the common Hemlock.

		Each
25	<i>Tsuga Caroliniana</i> , 2 to 2½ ft.	\$4.00
60	“ “ 18 to 24 in.....	3.00
500	<i>Yucca filamentosa</i>15

Large size Specimen Evergreens from \$25. to \$40. each, for your personal choice and selection.

DECIDUOUS TREES.

		Each
4	<i>Acer platanoides</i> , 12 to 15 ft.....	\$5.00

Some rare varieties of stock not listed, to be
priced on personal examination.

CONCLUSION.

It is sometimes asked why we do not publish a full descriptive Catalogue. Our reply is that the Nursery is small; intended mainly to supply the immediate needs of the proprietor and his personal customers, and we find that there are comparatively few people, as purchasers, who do not know or cannot find out what the list offers through the ordinary botanic names, and we are willing always to explain further to those who are in doubt about anything.

Among our regular customers are included today house architects, engineers, and nurserymen who desire prompt attention, choice stock, and the most careful handling and packing: i.e., reliable service.
